

Barrels for Box Wines

After years, Bag in box wine has finally reached the everyday wine lover. We've always trusted in this format, for its simplicity and convenience. Even in our Bag in boxes, the quality of the wine has always been our first focus. For those people that trusted us for more than a decade, we have been thinking about an elegant small barrel that perfectly fits your 3 and 10 liters boxes. Easy to use, you can pour your everyday glass of wine, always fresh and fruity, straight from your barrel to your table.
